VERBATIM RESPONSE

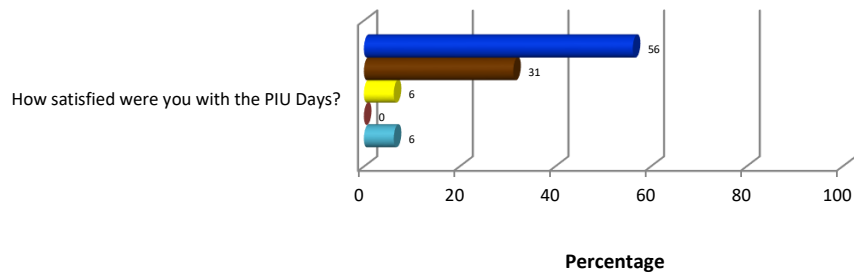

1. Need to know more ahead of time.
2. It was fun.
3. It took so much pressure with international day and pi days. Took out energy out from everyone.
4. Speakers good. Good idea having an alumni team.
5. Practices were stressful - need a way to select team leaders, so things get done + communication can be facilitated.
6. That it was great the overall decorations were used + modified by the teams - it created a unified feeling. Liked the theme + shirts alike for all teams - just [?] colors which also unified us. It is a very busy time - The message of each team built greatly on the other.
